Coordination Center (NSFCC)
MER Preparedness Department
(MERPD)

MERPD Responsibilities

- 1) Operations Officer – NSF Policy Program**
- 2) Industrial Hygienist – NSF Safety & Health Policy Program**
- 3) Equipment Specialist – NSF Operational Equipment**
- 4) Exercise Program Specialist (CPE - Funding)**
 - **FSE (Gov't Lead) (3-4 per year) (PREP)**
 - **SORS (16 WLBS)**
 - **VOSS (6 OCONUS/3 Strike Team)**
 - **Area Specialist**
- 5) RRI Program Specialist**
 - **Response Resource Inventory (RRI) Database Management**
 - **OSRO Classification Program**
 - **Preparedness Assessment Verification (PAV) Program**

District/Regional S/T Supported Exercises

- FSE (Gov't)
 - FY16 Jacksonville (03/16) RRTIV/D7
 - FY17 MSU Morgan City (03/17) RRTVI/D8
 - FY18 MSU Port Arthur (09/18) RRTVI/D8
 - FY18 North Carolina (03/18) RRTIV/D5
- VOSS
 - Gulf Strike Team
- SORS
 - FY 16/17/18 CGC Cypress (Pensacola, FL) (09/16) RRTIV/D8
 - FY16 CGC Oak (Charleston, SC) RRTIV/D7 Yards
 - FY16 CGC Willow (after Yard To Charleston, SC) FY17/18
 - FY16/17 CGC Elm (Atlantic Beach NC) RRTIV/D5 FY18 Yards
 - FY18 CGC Maple (After Yard to Atlantic Beach, NC)

NO COST TO UNIT – NSF Funded via CPS

NSF Area Specialist Program

- NSFINST 5700.1C

The Area Specialist Program is an important means for the NSF to provide an effective on-going liaison with USCG and EPA FOSCs in order to enhance preparedness, build capacity and facilitate best available response support.

Area Specialist

- Establish and maintain regular contact with COTP POCs.
- Arrange for an area familiarization visit.
- Provide NSF capabilities brief and talking points on exercise planning/support.
- Review and become knowledgeable with your Area Contingency Plan(s).
 - Ensure NSF capabilities are accurately represented
 - Ensure Strike Team and NSFCC are on the distribution list for ACP updates

- Develop logistics plan for the area to facilitate a NSF response. Information may be in the ACPs or obtained from DRATs.
- Facilitate technical training as appropriate (cost doc, contractor monitoring, ICS, etc).
- Provide SME to Support NSFCC PAV visits.
- Participate as SME for PREP planning meetings.
- Attend RRT/Area Committee meetings

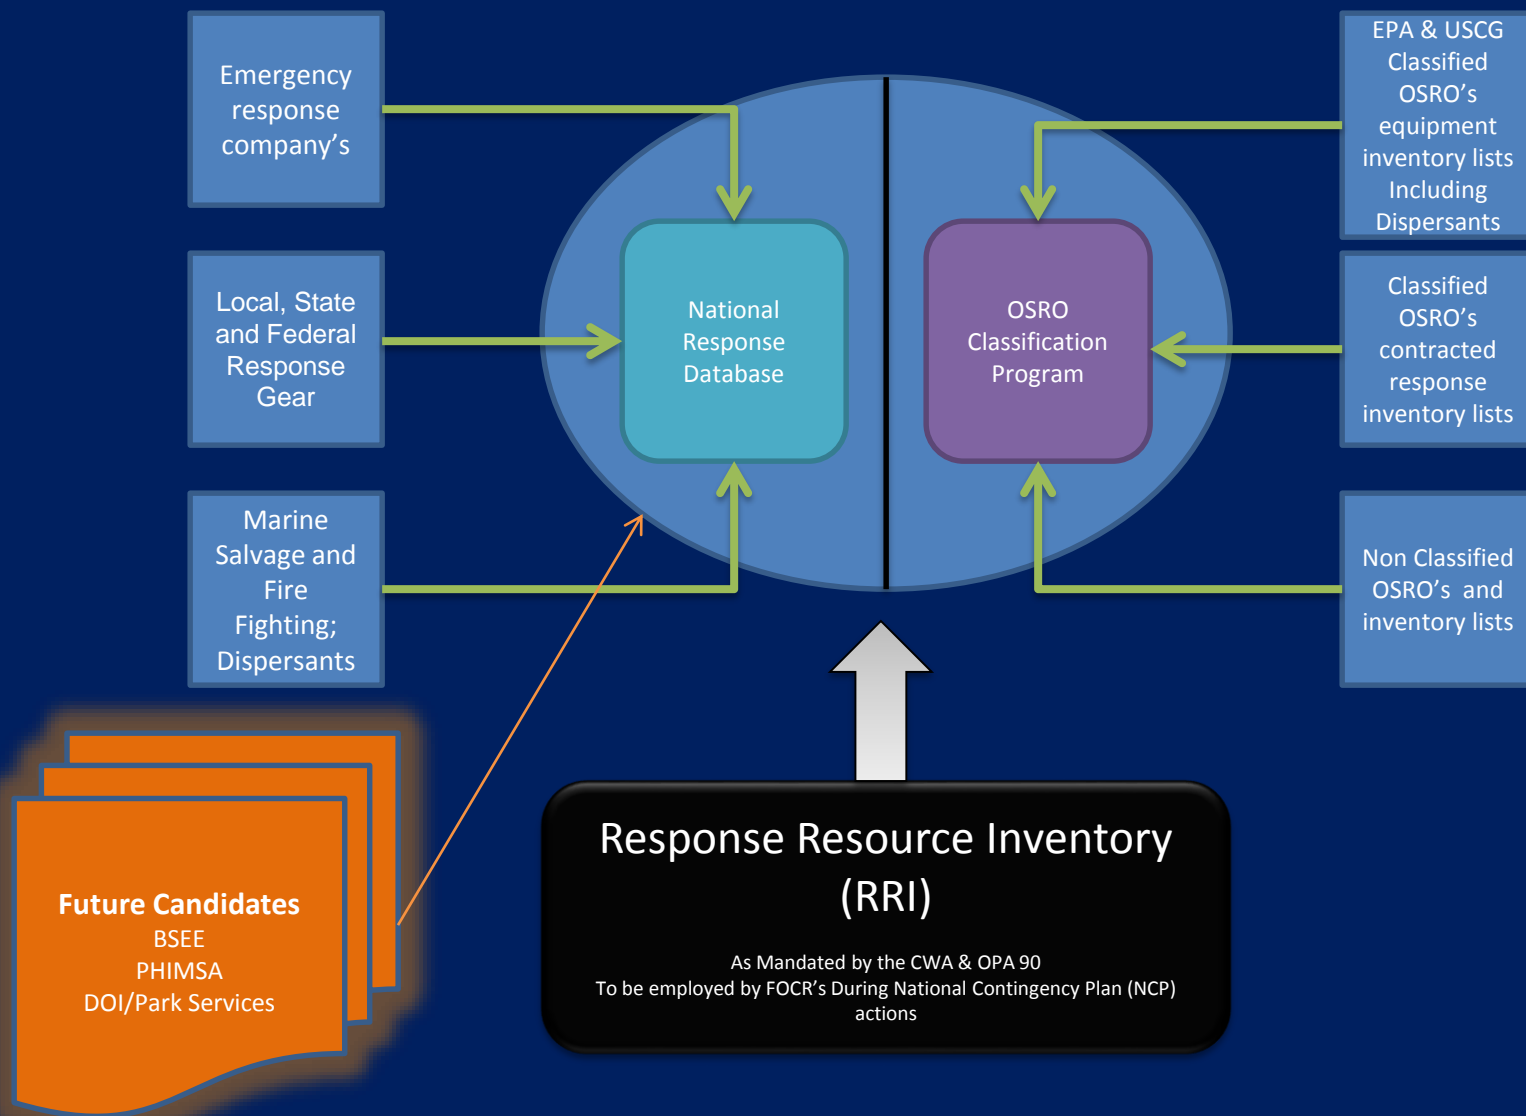

NO COST TO THE UNIT!!!! (Funded by the NSF)

OSRO Classification Program & RRI

- The OSRO classification program was created in response to the new regulatory requirements established by OPA 90. The program is completely voluntary and its purpose is to assist oil-handling facilities and vessels in writing spill response plans. The program is implemented and housed within the Response Resource Database (RRI).
- By listing a Coast Guard classified OSRO in a response plan, the plan holder is exempted from providing and updating extensive lists of response resources. This remains the only regulatory benefit that plan holders receive from using a classified OSRO. The program is simply a tool that helps plan holders meet statutory requirements set forth in 33 CFR 154 and 155. The RRI is not only used as the National Response Database, it is also the primary tool used to classify an OSRO.

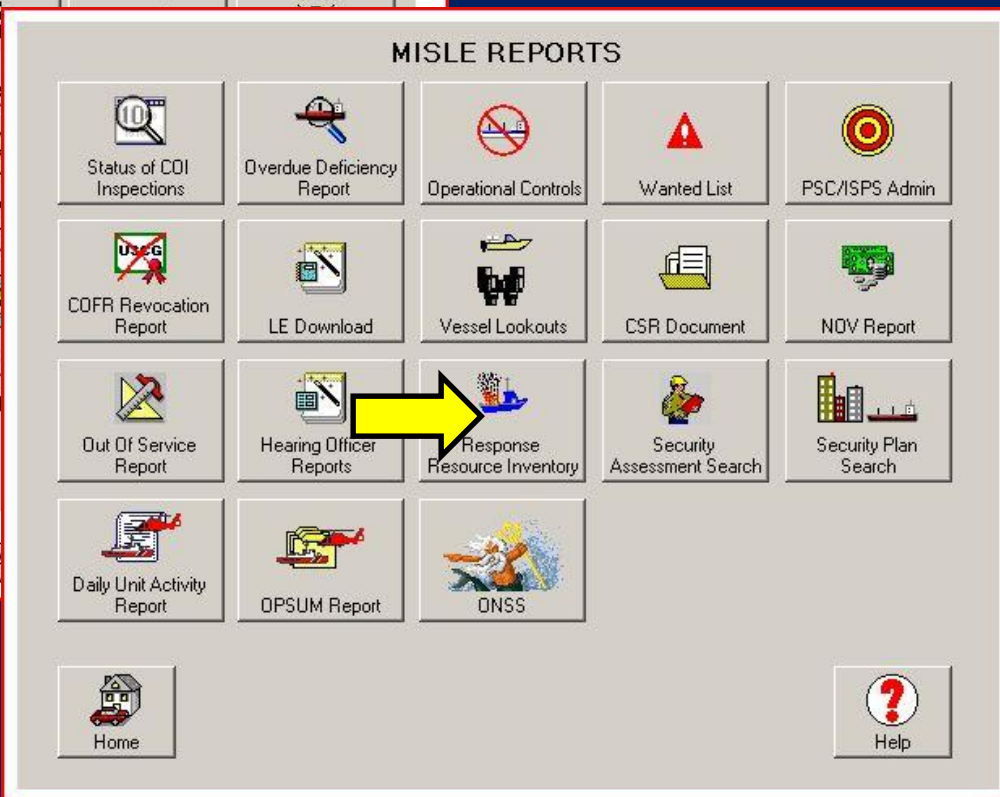

OSRO Classification Program & The National Database

National Strike Force

"The World's Best Responders: Any Time, Any Place, Any Hazard."

The National Strike Force (NSF) provides highly trained, experienced personnel and specialized equipment to Coast Guard and other federal agencies to facilitate pre-incident planning, emergency response, and substance pollution incidents in the environment. The NSF's Districts and Federal Regions are:

The NSF totals over 200 personnel and includes the NSFCC; the Atlantic Strike Team; and the Pacific Strike Team.
