

Interagency Coordinating Committee on Oil Pollution Research (ICCOPR)

Ms. Kirsten Trego
ICCOPR Executive Director
U.S. Coast Guard Headquarters
Office of Marine Environmental Response Policy

Regional Response Team - Region III (RRT III)
November 15, 2017
Lancaster, PA

NLST

BOEM
BUREAU OF OCEAN ENERGY MANAGEMENT

Interagency Coordinating Committee on Oil Pollution Research

- Oil Pollution Act of 1990, and 33 U.S.C. 2761
- 15 Agency Members
- Collaborative approach to address federal research needs

ICCOPR Website: www.dco.uscg.mil/iccopr

Oil Pollution Research and Technology Plan (OPRTP)

Prevention

Preparedness

Response

Injury Assessment and Restoration

- Human Error Factors
- Offshore Facilities & Systems
- Onshore Facilities & Systems
- Waterways Management
- Vessel Design
- Drilling
- Rail/Truck Transport
- Pipeline Systems

- Pre-spill Baseline Studies
- Response Management Systems

- Structural Damage Assessment and Salvage
- At Source Control and Containment
- Chemical and Physical Behavior Modeling
- Oil Spill Detection and Surveillance
- In- and On-water Containment and Recovery
- Shore Containment and Recovery
- Dispersants
- In-situ Burning
- Bioremediation
- Alternative Chemical Countermeasures
- Oily Waste and Oil Disposal

- Environmental Impacts and Ecosystem Recovery
- Environmental Restoration Methods and Technologies
- Human Safety and Health
- Sociological and Economic Impacts

ICCOPR Standing Research Areas
(SRAs) as of September 29, 2015

FOCUS AREAS

ARCTIC WATERS

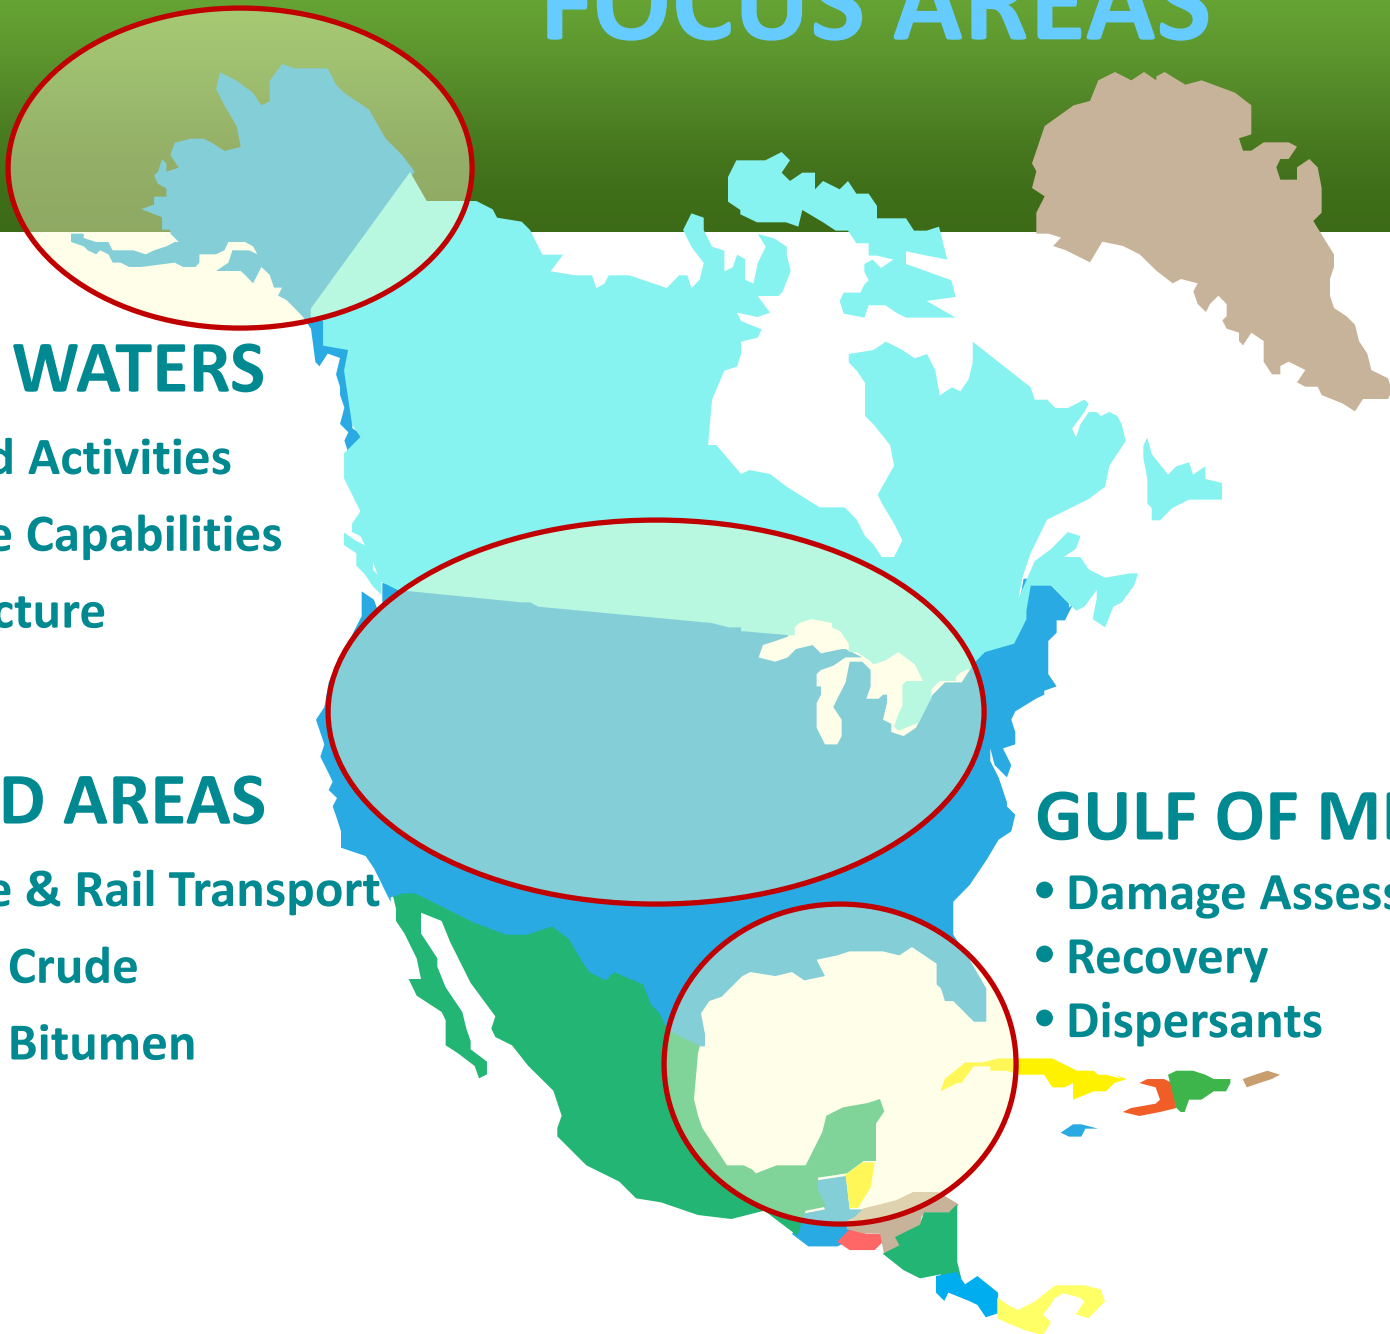

- Increased Activities
- Response Capabilities
- Infrastructure

INLAND AREAS

- Pipeline & Rail Transport
- Bakken Crude
- Diluted Bitumen

GULF OF MEXICO

- Damage Assessment
- Recovery
- Dispersants

150 Priorities – How Are We Doing?

of Projects by Research Class

- Prevention
- Preparedness
- Response
- Injury Assessment

LOSC 2017
PREVENT • PREPARE • RESPOND • RESTORE
