Subject: Region 10 Regional Response Team (RRT10) Co-Chair Update

The public comment period on our draft plans has now closed. Thank you to everyone who took the time to review and provide comments. Our plans will be better because of your scrutiny and input.

The Regionwide Planning Committee and Area Committees are working diligently to adjudicate all comments. As a reminder to the community, this endeavor has been guided by the Pacific Northwest Oil and Hazardous Substances Spill Contingency Planning Framework. This agreement focuses on the reorganization of the legacy Northwest Area Contingency Plan and precludes us from making substantive changes to the plans. We acknowledge that many of your comments will require future work from our committees, subcommittees, work groups, and task forces.

We continue to be on track to promulgate our new plans in October and will be working to finalize our plans at the September RRT10 Meeting. We will continue to send updates via our website and constant contact.

We thank you for your continued support of RRT10.

Best regards,  
Lori and Brian
