Incident Management Assistance Team (IMAT)

CDR Mark Shepard

Public Information Assist Team (PIAT)

CWO Kimberly Smith

# Recent NSF Changes

- Transitioned to LANTAREA FY13
- Public Information Assistance Team (PIAT) to Incident Management Assistance Team (IMAT) FY13
- IMAT to NSFCC FY16 (Like S/T) (PIAT back to NSFCC)
- FORCECOM Center Of Expertise (COE) establishment FY14 (Strike Teams to conform to CG OPS requirements)
- INCONUS VOSS Consolidation 2014-2016
- National Maintenance Contract (NMC) to SILC Civil Engineering Unit - Miami FY14 to SILC-WOPL (Waterways Operations Product Line) FY16
- CG HQ 721 CBRNE

# Strike Team Capabilities

- General Response:
  - Site Safety
  - ICS Support
  - Hazard Mitigation & Source Control
- Specialized Response
  - Biological Response
  - Chemical Response
  - Preparedness Support
  - Oil Spill Response
  - Radiological Response

## Requesting NSF Assistance

- Strike Team Direct
- NSF Command Duty Office
- National Response Center 800 424 8802

# NSFCC Programs

- 1) **Industrial Hygienist – Safety/Health Policy Program**
- 2) **Equipment Specialist – Strike Team Equipment/OSRT**
- 3) **Planner/Exercise Program (CPE)**
  - **PREP FSE (Gov't Lead) (3-4 per year) (Baltimore FY17)**
  - **SORS (16 WLBS)**
  - **VOSS (6 OCONUS/3 Strike Team)**
  - **Area Specialist**
- 4) **RRI Program**
  - **Response Resource Inventory (RRI) Database Management**
  - **OSRO Classification Program**
  - **Preparedness Assessment Verification (PAV) Program**

# NSF Area Specialist Program

- NSFINST 5700.1C

The Area Specialist Program is an important means for the NSF to provide an effective on-going liaison with USCG and EPA FOSCs in order to enhance preparedness, build capacity and facilitate best available response support.

# Area Specialist

- Review and become knowledgeable with your Area Contingency Plan(s).
  - Ensure NSF capabilities are accurately represented
  - Ensure Strike Team and NSFCC are on the distribution list for ACP updates

- Develop logistics plan for the area to facilitate a NSF response. (Information may be in the ACPs or obtained from DRATs).
- Facilitate technical training as appropriate (cost doc, contractor monitoring, ICS, etc).
- Attend or provide SME to Support NSFCC PAV visits.
- Participate as Subject Matter Expert (SME) for PREP planning meetings.
- Attend RRT/Area Committee meetings

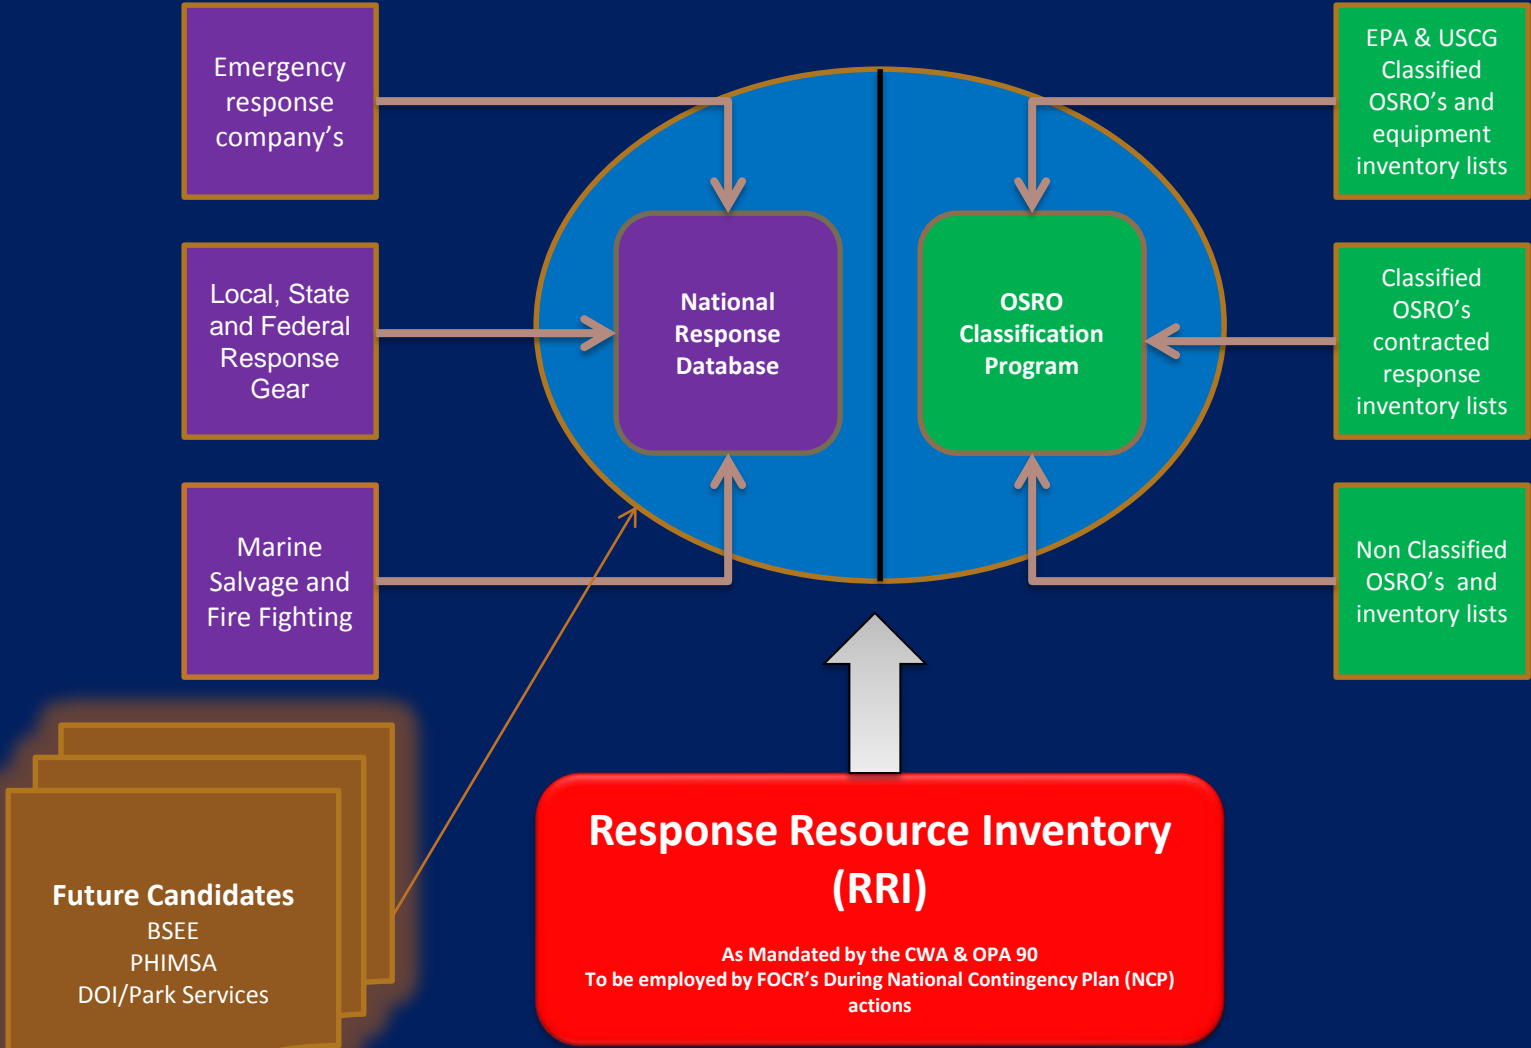

**NO COST TO THE UNIT!!!! (Funded by the NSF)**

# OSRO Classification Program & RRI

- The OSRO classification program was created in response to the new regulatory requirements established by OPA 90. The program is completely voluntary and its purpose is to assist oil-handling facilities and vessels in writing spill response plans. The program is implemented and housed within the Response Resource Database (RRI).
- By listing a Coast Guard classified OSRO in a response plan, the plan holder is exempted from providing and updating extensive lists of response resources. This remains the only regulatory benefit that plan holders receive from using a classified OSRO. The program is simply a tool that helps plan holders meet statutory requirements set forth in 33 CFR 154 and 155. The RRI is not only used as the National Response Database, it is also the primary tool used to classify an OSRO.

# RRI ACCESS METHODS

The screenshot shows the United States Coast Guard website. The top navigation bar includes links for Contact Us, Site Map, FAQs, and Phone Book. A search bar is present with the text "Search Current Unit". The main content area features the National Strike Force logo and the text "National Strike Force" with the tagline "The World's Best Responders: Any Time, Any Place, Any Hazard." Below this, there is a description of the NSF's role and a "Featured Links" section. A yellow arrow points to the "USCG Response Resource Inventory System (RRI)" link in the left sidebar. Another yellow arrow points from the search bar area towards the right side of the image.

GOOGLE  
USCG NSFCC

<http://www.uscg.mil/hq/nsfweb/>

The screenshot shows the United States Coast Guard Response Resource Inventory System (RRI) page. The page features the USCG logo on the left and the NSF logo on the right. The main heading is "United States Coast Guard Response Resource Inventory System". Below the heading, there are several sections for OSRO reports:

- OSRO Mechanical Classification Reports:
  - [OSRO Listing by Company](#)
  - [OSRO Listing by COTP Zone](#)
  - [OSRO Listing by District](#)
- OSRO Dispersant Classification Report:
  - [OSRO Dispersant Listing by Company](#)
- Marine Salvage and Firefighting COTP Operational Report:
  - [Salvage Operational COTP Listing by Company](#)
- OSRO Point of Contact Report:
  - [OSRO Point of Contact](#)

A brown arrow points upwards from the OSRO Mechanical Classification Reports section towards the NSF logo.
